Hello! I am a student about to go into Queens. I have recently passed my A-Levels with grades of A\* A\* A. I specialise in Computer Science. For my A-Level in Software Systems Development I learned much about the world of work, and what drives a successful business.

I have been trained as a Microsoft Office Specialist, and gained a Master qualification. I can easily manage spreadsheets and documents. I am also naturally tech-savvy.

I have completed 8 grades and a diploma in Speech and Drama, so can easily communicate and work in a team alongside forming bonds with users/customers.

I pride myself with a positive attitude, and would love to make any workplace a happier and more productive place!

Thanking you for your attention,

Daniel Mackle.
